UP3D Tech

One-stop Dental CAD/CAM Solution

UP3D is a high tech company headquartered in Shenzhen in 2013.

UP3D released the first blue light scanner in China in 2014, also the first and only commercialized dental CAD-UPCAD in 2015. By 2018, Up3d had released a series of model scanners, design sw, dental CAM sw and dental milling machines.

We are committed to provide our worldwide customers with high quality dental cadcam products to benefit from the digital dental revolution.

Dental scanners

UP3D blue light scanner series

Big articulator scan

Capture occlusion relationship directly by side-lay scanning big articulators.

Automatic alignment

Intelligent algorithm to automatically align dies to jaws or jaws to bite.

Applications

Veneer model, implant model, uncut model, and regular cut model, impressions

Multi-color projector

Adaptable color projector. Red, blue and white colors projecting to adapt to complex model colors

UPScan APP

Easy to operate scanning software, free upgrade

Margin drawing

Draw margin line in UPSCAN and export margin data to design software.

exocad

Integrated with exocad software, more convenient scanning and design workflow.

UP360

The world's first specialized uncut-model scanner

Scan without dead angle

Scan impression/uncut models; data without dead angle; No need fill holes.

Traditional scanner structure

UP360 scanner structure

High precision

Dual 2.0MP cameras, 6μm Accuracy

Others VS UP360

1.3MP VS 2.0MP

High speed

Triple tray

12 unit multi-dies scan

All-in-one

Scan full arch

Up300

Scan has never been so fast

All-in-one

Scan a quadrant in 25s, 2 steps, saving 50% total work time.

Scanning upper,
lower jaws and dies
at the same time

Automatic
alignment

Only 25s

Triple tray

Digital impression is just one click away.

12 unit multi-dies scan

Scan 12 unit dies with free placement
in 20s.

Up300E

The most economical scanner for you

High speed

Scan full arch: 25s; Scan upper&lower impression: 3 minutes

12 unit multi-die scan

Model scanning

Highly cost effective

12 unit multi-die scan

Scan 12 unit die with free placement in 20s.

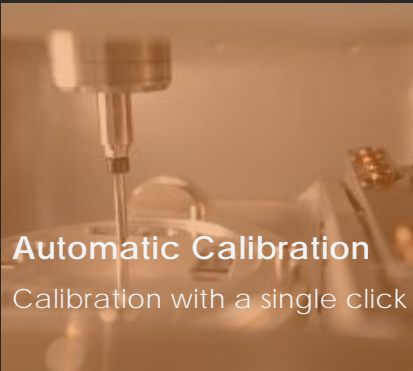

Smart Dental Milling Machine

4 Axis Smart Dental Milling Machine P4 5 Axis Smart Dental Milling Machine P5

UP3D'S independent R&D, with core technology, perfect combination of smart control system and unibody casting structure.
60%-80% energy saving than traditional dental milling machines.

Automatic Calibration
Calibration with a single click

Smart initialization
The first milling machine with automatic calibration and smart initialization in China

Materials saving
Special material-saving processing strategy and nesting method, zirconia disk C-clamp mode

One piece framework structure
Durable in use, more stable and anti-dust

Tools library
11 tools, change the material fast

Simple installation
DIY installation in 10 minutes

Small size
Portable, precise and stable

Support multiple restoration cases
Such as crown, bridge, coping, waxup, etc.

UPCNC software
One interface for multi-mills, easy to operate and one-click milling.

Highly integrated hardware and software
Excellent R&D strength makes easy operation and high efficiency

Independent R&D
All hardware and software are developed by Up3d. Intelligent control system perfectly merged with one-piece framework structure.

HTTP/RESUME
Automatically continue mill from the last interrupt step, avoiding repeated work flow and improving work efficiency by 80%

Up3d

P4

P5

Model	UPMIII-P4		UPMIII-P5
Dimension	620×430×560 (mm)		
Weight	68Kg		72Kg
Input voltage	AC 100~235V、 50~60Hz		
Max power	0.8KW		
Spindle power	0.52KW (max)		
Axis quantity	4 axis (tilt<15 degree)		5-axis simultaneous
Milling range	X/Y/Z: 165/135/70mm A: 360°		X/Y/Z: 165/135/70mm A: ±30° B: 360°
Milling mode	Dry milling		
Max rotate speed	40,000~60,000rpm		
Max feed rate	3000mm/min		
Tool capacity	11		
Tools changing	Automatic (air pressure>0.5 MPa)		
Spindle cooling	Air cooling		
Milling materials	Zirconia, wax, PMMA, wood		
Milling time	Zirconia(Coping): 8min、 wax: 4min		Zirconia(Coping): 10min、 wax: 6min
	Zirconia(Crown): 12min、 wax: 8min		Zirconia(Crown): 14min、 wax: 10min
Tools	2+1+0.6mm,Φ4		

UPCAD

Simple,easy,intuitive

UPCAM

Compatible with up3d smart milling machine P4, P5.

Function

UPCAD is an independently engineered dental design software by UP3D since 2011, more modules are coming in the future.

Crown (Bridge)

Coping

Veneer

Inlay/Onlay

More modules are coming soon...

Model Builder

Ortho

Implant

Function

UPCAM is a dental CAM software which is developed by UP3D and ModuleWorks from Germany. (ModuleWorks is one of the most advanced CAM core algorithm supplier in the world). UPCAM supports all types of dental restoration processing, Different processing strategies to ensure the processing quality of each part.

Quality assurance
(Germany Core)

Fast calculation

Easy operation

Customizable solution

Scanner

Model	Up300E	Up300	Up360
