20
YEARS
UNIVET
ANNIVERSARY

UNIVET
OPTICAL TECHNOLOGIES

DESIGN

Design, prototype, die machining, milling and finishing of each single component, optic manufacturing and alignment, up to the most delicate phase of lens fastening.

CREATION

Precious and noble materials, finishing, components and accessories, together with the Italian manufacturing tradition, enrich each model to make it an heir of the Italian tradition and culture.

DETAILS

Care for the details, the best craftsmanship into a reliable industrial process, a constant innovation, thanks to an in-house laboratory dedicated to the development of technologies, materials and coatings.

INTEGRATION

A distinctive character, immediately recognizable, exclusivity, total personalization, value, style, to offer more comfort, an ideal wearability and a perfect integration with the lighting systems.

MADE IN ITALY

Made to measure and entirely in Italy, in-house, both the frames and the lenses, the Loupes are today a necessary tool to grant advanced performance and a better accuracy during the diagnostic and the surgery phase.
